

Foundry Sea to Sky is seeking several part-time family physicians, with enthusiasm for and experience working with adolescents and young adults, to provide team-based primary care in a purpose-built, supportive, multi-disciplinary youth hub located in Squamish, BC.

Foundry is removing barriers and increasing access to health and wellness services for young people ages 12–24 and their caregivers through a network of innovative youth-friendly centres across British Columbia and online. By offering integrated mental health care, substance use services, primary and sexual health care, youth and family peer support and social services, Foundry makes it easier for young people to find support in their communities. Online resources and first-of-its-kind virtual care further broaden Foundry's reach.

- Remuneration will be in accordance with the Foundry Clinic Group Service Contract.
- The estimated clinic opening timeline is October 2024.
- Please do not contact the clinic directly.
- Any questions can be directed to recruitment@nsdivision.ca

Skills and Abilities:

- Enthusiasm for and experience working with adolescents and young adults
- Demonstrates a high level of clinical skill and competence with knowledge in the following areas:
